I went to a few of Josh's office hours, and he was one of the best TAs I've interacted with. He never gives us the answer, but instead prompts it through guiding questions and related examples. Importantly, I never felt embarrassed to ask a question because he was very encouraging and understanding. Josh was also very active on Piazza, which was helpful around midterm season.

Josh is the best TA, I have ever had. He really helped me a lot with the course content material and he also gave me extra office hours on zoom when I have questions in preparing for midterm 2 and final exam.

I hope that Josh will be my TA again in the future!

Thanks Josh for your help!

Josh is very approachable and would help us understand how to answer the practice problems during discussion sections. If there is anything that seems difficult to understand, he would try and simplify it or give up tips on how to answer those types of questions, which I found very helpful for me to do and to use during exams. He was also very clear when explaining concepts and explaining how to answer practice problems.

Could have earned better evaluation but made many mistakes that did not facilitate learning. Almost weekly had to email attendees to correct himself. Which although shows effort, also increased the confusion.

I have no complaints about the TAs teaching style, and found him to be very helpful.

Josh is really nice and helpful!!!

Josh went out of his way to make himself available for extra office hours so that students were prepared for exams. He explained concepts thoroughly and succinctly, which is something that few can do easily. I recommend Josh for any TA position.
